**Building A Stronger,  
Smarter Workforce for  
the 21st Century and Beyond**

### How it Works

Because the offer on this web site is limited to current students, faculty, and staff of Nebraska ESU Member schools and ESU's only, you are first required to obtain a registration number. It's as easy as 1-2-3-4!

#### 1.) **Get Registration Number from School**

The registration number is a one page print-out and will give complete instructions on how to order.

School Contact: **Mr. John Doe**  
**Business Office, Rm 202**

#### 2.) **Select Software**

\*Go online to:

<http://www.NebraskaK12.e-academy.com>

Click: "Registration"

Enter: Registration Number and Email Address

Select: Password

Click on the "SOFTWARE" button at the top of the page. Browse the website to find the software product you are looking for.

When you find the product you want, click on "ADD TO CART". You can click on "CONTINUE SHOPPING" to purchase additional products or "CHECKOUT" to proceed to the Make Payment stage.

#### 3.) **Make Payment**

Payment requires a valid VISA ® or MasterCard®. For security, full name and address of the cardholder is required for verification.

Buyer will receive an email confirming the purchase and this serves as the receipt. Shopping is 100% secure. Guaranteed.

#### 4.) **Order Received**

Buyer will receive the CD Media by mail with installation instructions and the installation key. The installation is the buyers responsibility, not the responsibility of the school district or ESU.
